PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building production web applications and RESTful APIs using Node.js, NestJS, Express.js, Angular, React.js, MongoDB, and MySQL. Experienced in developing CRM, e-commerce, healthcare, fintech, and real-time applications with hands-on experience in JWT authentication, RBAC, Socket.IO, payment gateway integration, API optimization, and cloud deployment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Angular, HTML5, CSS3, Bootstrap, Responsive Web Design

Backend: Node.js, NestJS, Express.js, RESTful APIs, Socket.IO

Authentication & Security: JWT, RBAC, Authentication, Authorization

Database: MongoDB, MySQL

Cloud & Deployment: AWS EC2, Linux, Render, Hostinger, PM2

Tools: Git, GitHub, Swagger, Postman, Jest

Architecture: MVC, Modular Architecture, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Developer — Phian Infotech, Nagpur

July 2025 – Present

- Developed production-ready backend applications using Node.js, NestJS, Express.js, MongoDB, and MySQL.
- Designed and implemented RESTful APIs with JWT authentication, role-based access control (RBAC), validation, and structured error handling.
- Developed **Vaultstone CRM** with Lead, Opportunity, Property, Customer, Task, Dashboard, and User Management modules.
- Implemented real-time notifications and live updates using Socket.IO.
- Developed the **Ayurpiles India** healthcare platform using Angular, NestJS, and MySQL, including appointment booking and administrative workflows.
- Developed CMS functionality for the Phian Infotech corporate website and Athursday Cafe platform.
- Deployed and maintained production applications on Linux servers, Hostinger, and Render.

Software Developer — Atina Technology Pvt. Ltd, Nagpur

Feb 2024 – June 2025

- Developed a full-stack e-commerce platform using React.js, NestJS, MongoDB, and RESTful APIs.
- Developed backend services for an Emergency Alert System supporting real-time device communication.
- Enhanced Angular modules for firefighter workflow management.
- Optimized NestJS APIs and database operations across MongoDB and MySQL.
- Participated in Agile development, sprint planning, code reviews, and collaborative software development.

Software Developer — ULIS Technology Pvt. Ltd, Nagpur

May 2022 – June 2023

- Developed and integrated **PayDart and Telr payment gateway APIs** using Node.js, Express.js, and MySQL.
- Implemented transaction validation, secure payment processing, and API error handling.
- Managed Git workflows and supported production application deployments.

KEY PROJECTS

Vaultstone CRM

Angular | Node.js | NestJS | MongoDB | Socket.IO <https://crm.vaultstone.in/>

- Developed a real-estate CRM platform for builders and sales teams.
- Implemented **Lead, Property, Opportunity, Customer, Task, Dashboard, and User Management** modules.
- Designed and developed scalable **RESTful APIs** using NestJS.
- Implemented **JWT authentication, Role-Based Access Control (RBAC), and real-time notifications using Socket.IO.**

E-Commerce Web Application

React.js | NestJS | MongoDB | REST APIs | [Live Project](#)

- Developed a full-stack e-commerce platform using **React.js, NestJS, MongoDB, and RESTful APIs.**
- Developed frontend and backend functionality for core e-commerce workflows.

Emergency Alert System

Angular | NestJS | MySQL | **NDA**

- Developed backend functionality for a **real-time emergency alert system** supporting device communication.
- Worked on **Angular modules for firefighter workflow management.**

PayDart Payment Gateway

Node.js | Express.js | MySQL | **NDA**

- Developed and integrated **payment gateway APIs** using Node.js, Express.js, and MySQL.
- Implemented **transaction validation, security, and error handling** for payment processing.

EDUCATION

Bachelor of Engineering – Information Technology

VMIT, Nagpur, India

Graduated: 2019
